PROJECTS

Portfolio Website (*January 2024*)
Created a dynamic portfolio website using HTML, CSS, and JavaScript. Showcased professional experience, projects, and contact details with a focus on responsive design. Demonstrated expertise in web development and design principles.

RideShareX (IOS App) (*December 2023*)
Developed RideShareX, a ride-sharing app connecting users and drivers. Crafted essential features for location selection, ride acceptance, and pooling options. Utilized Figma for wireframing and delivered an interactive prototype and final product, emphasizing user-friendly navigation and seamless functionality.

Photo Editor (*May 2023*)
Successfully created a web-based photo editor using Python and Streamlit. This achievement was measured by its user adoption rate, functionality, and the ease with which users could upload images, apply filters, and download edited versions with precision and convenience.
